2/4-channel mobile DVR
+ 2/4 high-res cameras

The best-selling Trooper® TL is the ideal mobile surveillance solution for school districts that require value without compromise. The rugged and reliable Trooper delivers outstanding image quality by utilizing the most efficient video storage technology on the market (H.264). The Trooper is compact, and easy to install and use. Retrieve key details about an incident using video synchronized with mapping software, and GPS data. Seon also offers a range of cameras designed specifically for mobile environments.

Industrial wireless
technology

Save time and footwork with Seon's Smart-Reach® industrial wireless solution. Automatically download video clips and other important vehicle information from multiple buses and sites to your central office. Use Smart-Reach to monitor your fleet and automate the notification of alarmed events. Seon's secure and reliable wireless system offers unparalleled convenience, saving administrators the effort involved with the manual retrieval of hard drives.

C In the School

Scalable video
management software

Managing all the recorded data from a fleet of buses is a challenge, and Seon has developed the ultimate solution, vMax® Commander. This scalable software system helps you manage video and vehicle data through the automation of regular tasks. Use one convenient software interface to automatically download alarmed events, receive system health reports, and configure DVRs remotely, all from your central office location.
