

## Value without compromise

The best-selling Trooper® TL is the ideal mobile surveillance solution for transportation authorities that require value without compromise.

The rugged and reliable Trooper delivers outstanding image quality by utilizing the most efficient video storage technology on the market (H.264). The Trooper is compact, and easy to install and use. Retrieve key details about an incident using video synchronized with mapping software and GPS data.

### Benefits:

- Supports 2 cameras with audio.
- Features H.264 compression for premium image quality.
- Stores up to 500 GB for plenty of recording space.
- Records up to 30 FPS per camera at 720 x 480.
- Delivers Wi-Fi capability to manage video data remotely.
- Provides a simple point-and-click graphical user-interface.
- Offers a compact, integrated lock box design.
- Includes the vMax® Web program.
- Supports GPS and mapping software for vehicle tracking.
